Meeting 3

Location:	CW 126
Date:	October 10, 2018
Time:	3:00 pm - 4:00 pm

Attendees:

- Heather Hadjistavropoulos
- Marcie Nugent
- Christian John
- Iden Ellia
- Joe Samano

Summary of the Meeting:

- Heather and Marcie briefly discussed on what they currently have on their website and the some of the problems they are facing particularly how younger users are not completing their course.
- We briefly discussed that we are working on a general real-time messaging application.
- A messaging chat feature is one of the things that they do not have and we agreed that having a real-time messaging application is beneficial for them.
- Brief list of possible features for the real-time messaging application:
    - One-to-One Chat
    - Encrypt messages
    - Save messages for therapists and users
    - Allow users to be able to delete messages
    - Track and record for the time it takes to reply
- Marcie will inform the developer about this meeting so that we could discuss on how the backend works for their website and get the things we need for our project.
- Heather will provide us with problem statements for our project.
