**Date:** October 15, 2018
**Time:** 12:30 pm - 2:30 pm

## Attendees:

- Max Ivanov
- Christian John
- Iden Ellia
- Joe Samano

## Summary of the Meeting:

- Max explained how the backend of the website works.
- Max also explained that our project idea cannot be integrated with their system because what we wanted needed changes on their side as well.
- Max proposed that instead of creating a real-time messaging application, we could build an application that contains the current features of their website.
- Max explained that the project requirements that Heather gave us is too huge for us to handle, so Max will provide us with a new project requirements.
- After the meeting with Max, we decided to do the idea that Max proposed to us.
